ServoMaster: Credits

Table of contents

1. People who made this happen

People is the most important asset of any Open Source project. Without people, things don't happen. Here's a brief list of people that helped this project to happen:

- **A. Keith Fligg** (FerretTronics), for help with FT639;
- **Chester Fitchett** (Phidgets, Inc.), for generous hardware donations and after hours support ;)
- **Jack Strohm** (libphidget project), for USB related clarifications;
- **Jan Malasek** (Pololu Corporation), for troubleshooting assistance;
- **Nic van der Walt**, for hardware donations and attitude;
- **Vlad Izyumov**, for help with Pololu driver.

2. Hardware Donations made to ServoMaster

- Phidgets, Inc.: QuadServo, AdvancedServo;
- Nic van der Walt: 1-Wire® based controller;
- Parallax, Inc. - serial and USB controllers.
- Pololu Corporation - 16-Servo USB Controller.
